

## THE INCREDIBLE INTERCESSORY POWERS OF OUR BLESSED MOTHER THROUGH THE HOLY ROSARY

Sunday dinner, March 12, 2023, started before 4 PM since our eldest son, Billy and his spouse, Maria had not had lunch yet. She just got off work from her airport job. While the rest of the family my wife and daughter, Ann and son-in-law, Dan had late breakfasts only. This also allows us to be able to pray the Holy Rosary as a family by joining the Rosary webcast of the MIQ (Mary Immaculate Queen) Parish group at 5 PM.

During dinner, Dan and Ann mentioned the collapse of the Silicon Valley Bank (SVB) of Santa Clara, California the previous week and how it will impact Dan's job and the jobs of thousands of start up companies whose payroll money are deposited with SVB. The venture capital of 2,000 venture capitalists are also with SVB. The scope of this collapse after further discussion became scary as it would impact all the new industries, i.e. artificial intelligence, nana engineering, commercial space rocketry, etc. If the federal government does not protect those deposits, companies might have to close and instant massive unemployment will occur. With loss of jobs and income, the real estate industry will collapse since one foreclosure alone in a subdivision would cause that subdivision to lower the market value in those homes. Since many of these workers lived in different subdivisions, then this would result in the snowball effect akin to the real estate crash of 2008. Also, the prospect of the bankrupt companies selling all their assets became **scary** as **China could gain all the technological discoveries in the aforementioned venture industries.**

California is the fifth largest economy in the world. As California goes so the rest of the nation goes and the world follows. The rest of the country was actually facing an economic debacle similar to the dotcom bust of 1995 and the real estate bust of 2008. The rest of the country doesn't seem to realize that their whole economic future is in the precipice of destruction. So we decided to finish supper and get ready for the MIQ Parish Rosary with everyone having the objective of asking our Blessed Mother's help to get the Feds to save the various companies deposits with SVB to avoid another 1995 and 2008 economic disaster. To think that in the prior week, Treasury Secretary Janet Yellen vowed that the Feds **would not** bail out SVB!

After the Rosary recitation, Ann and Dan went to the local Home Depot to get some material for our clogged sink drainage. When they returned, about 7-8 PM, they were full of joy because the Feds just

issued a press release vowing to guarantee all the deposits in SVB to ensure that companies would have funds for their operation and payroll! Here's the link to that press release dated March 12, 2023: <https://www.fdic.gov/news/press-releases/2023/pr23016.html>

To wit, this happened just two hours after the Rosary! We immediately thanked God through our Blessed Mother for such a signal favor!

So to those who still pray the Rosary occasionally, pray it **daily** and enjoy the **powerful intercession** of our **Blessed Mother** and also ensure your salvation, which she guarantees to those for fervently and faithfully pray daily the Rosary.

The daily Rosary at MIQ Parish could be accessed on their website at this link: <http://www.miqparish.org/livestreaming-mass/>

"O give thanks to the Lord, because He is good: because His mercy endureth for ever and ever." (Daniel 3:89)

*© Blessed Mother, we thank thee for thine intercession and prayers for us. We thank our Lord for being generous to us and hearing our prayers through thy assistance.*
